

Building Code Official Candidate Application

Mark Johnson

International Code Council

mjohnson@iccsafe.org

888.422.7233

1. Please describe in light of the responsibilities of the RESNET Board why you are the right person to be a member of the RESNET Board of Directors

I have over 25 years of Senior Management experience working for the International Code Council (ICC), the publisher of the International Codes, which includes the IECC. In my position at ICC, I have worked with RESNET to solidify agreements to jointly develop and publish the 301, 310, 380 and 850 Standards as well as collaborating on joint training, membership and certification programs. I am familiar with RESNET and the important role it plays in our industry. I have been active in RESNET, attending and presenting at RESNET Conferences. I also currently serve as President on the RESNET Board.

2. Why is this the right time for you to serve on the RESNET Board?

With the current demographic shift in the building industry due to an aging work force and the complexity of energy codes, the role of RESNET HERS raters has never been more promising. RESNET and its member raters could provide a solution in the form of third-party inspectors as it pertains to energy and water efficiency requirements in codes and standards. It is clear that the goals of ICC and its members intersect nicely with those of RESNET. Serving on the RESNET Board provides an opportunity for me to be part of leveraging the synergies between our two organizations.

3. Please explain your knowledge and/or experience in terms of each of the primary responsibilities of the RESNET Board

I bring expertise in strategic planning and budgeting along with entrepreneurial skills that would be of value to RESNET. The ability I have displayed in forging partnerships and alliances with both collaborators and in some cases competing interests would be of value to RESNET. My current role at ICC entails the oversight of key business units that contribute approximately \$60 million in revenue annually. My expertise in business development could be beneficial to RESNET and its Board.

4. Describe your experience in either leadership and/or serving on the board of a non-profit organization.

I currently have over 30 years' experience in management at the Executive, Senior and Operational levels. In addition, I bring Board experience serving on two previous Nonprofit Boards prior to serving on the Board of RESNET (where I currently serve). In my past board experience, I serve as President on a Board for over 3 years. In my early years, I achieved the rank of Eagle Scout, which was instrumental in helping to shape me as a leader.

5. What would you contribute to the RESNET Board?

The areas I believe I would contribute most to the Board is to assist RESNET in expanding its visibility and influence in the building code and standards arena and help create more awareness among Code Officials. My strengths in business development can also be leveraged to increase the awareness and usage of RESNET Standards and related services among state and local government. I also have a strong skillset when it comes to creating new products and services for the building industry.
