

Achieving One Million Ratings Annually

RESNET®'S GOAL

One Million Ratings Completed Annually by the End of 2028

The RESNET Board of Directors adopted an ambitious goal of having a million ratings completed annually by our vast network of certified professionals.

Achieving this goal presents a dynamic opportunity for the RESNET rating industry to dramatically increase their business opportunities.

A

B

C

D

FOUR KEY OPPORTUNITIES TO ACHIEVE THE GOAL

A

Working with National Production Builders to Achieve 100% HERS Ratings

B

Attracting New Builders to Get Their Homes Rated for Energy, Carbon, and Water

C

Energy Code Compliance Verification, backed by Quality Assurance Oversight

D

Expanding into the Existing Homes Market

PROGRAMS, INCENTIVES AND ENERGY CODES ARE DRIVING THE DEMAND FOR MORE RATINGS

- ENERGY STAR and Zero Energy Ready Home Certification Tied to the 45L Federal Tax Credit
- Certified RESNET HERS Raters and Rating Field Inspectors Seen as the Go-to-Source for Energy Code Compliance Verification
- RESNET Carbon Ratings Filling the Need for Tracking Carbon Reduction Efforts
- RESNET HERSH20® Ratings and WaterSense Labeled Homes to Address the Efficient Use of Our Water Resources
- Corporate Environmental and Sustainability Reporting Supported by Data from the RESNET National Buildings Registry
- Incorporating Energy Performance into Mortgage Loan Qualification
- The Build to Rent Market Incorporating RESNET Ratings
- Green Mortgage-Backed Securities Offered by Fannie Mae and Freddie Mac
- Increasing Use of HERS Rating data in Appraisals and Real Estate Listings

RESNET looks forward to collaborating with the rating industry partners and industry stakeholders to make this goal a reality.
