

Achieving One Million Ratings Annually

RESNET[®]'s Role

RESNET'S GOAL

One Million Ratings Completed Annually by the End of 2028

The RESNET Board of Directors adopted an ambitious goal of having a million ratings completed annually by our vast network of certified professionals.

WHAT IS RESNET'S ROLE IN HELPING OUR NETWORK ACHIEVE THIS GOAL?

Supporting Market Mechanisms:

- Valuing HERS[®] Ratings in the real estate transaction, including real estate listings, appraisals and the primary and secondary mortgage markets.
- Recruiting more builders to have all of their homes HERS rated.
- Recruiting more builders to have their homes HERS_{H2O}[®] rated.
- Supporting the use of HERS Rating data in environmental and sustainability reporting.

Supporting Policy Mechanisms:

- Federal, state and local policies for energy, carbon and water.
- Tax credits and utility incentives for energy and water efficiency.
- Performance-based building energy codes.

Cultivating Partnerships and Collaborations:

- Driving ratings through strategic collaboration with industry associations, utilities, governments and corporations.

Developing and Supporting Programs:

- Increasing business opportunities for our network through new and innovative programs like HERS_{H2O}, HERS[®] Carbon Index, ENERGY STAR, Zero Energy Ready Home, WaterSense Labeled Homes, the IECC/HERS Code Compliance Program and embodied carbon.
- Having HERS Raters seen as the "go to" source of energy code compliance by code officials.

Leveraging Data and Enhancing Quality Assurance:

- Quality assurance is the backbone of our industry—fostering trust in all we do!
- The data in RESNET's National Buildings Registry is leveraged to support market and policy mechanisms, collaborations and programs that help grow business opportunities for our network.
